

Note: Speed progress
1.Normal phase(start)
2.Heating phase(ball glowing, add trail, background slowly turning red **at 25% speed progress.**)
3.Burning phase(ball in red flare, longer trail, boarder on fire **at 50% progress.**),
4.Overdrive phase(red flare turn into blue flare, more trail effect, background turn blue with more intense **at 75% speed progress.**)
5.speed of light(ball aren't on fire but turn into a light ball with white trail, dark background with the light of star from center move toward player, set in cosmic **at 100% speed progress as late game phase, reaching max speed limit.**)
